Indirect Spend Management Through Analytics And Leverage

CoVest is looking for progressive thinking companies ready to break free from the resource draining RFP cycle approach on select indirect categories. Our model provides leverage (15% - 30% savings), analytics and category management that enable companies to shed the cost of managing non-strategic Office, MRO and HR categories.

WHY COVEST SOURCING NETWORK?

The answer is simple - we are here to create savings for our members. We do this by providing pre-negotiated agreements for indirect goods and services, which yield immediate savings. Our team of professionals will meet with your company, explain our model and work with you to identify savings opportunities.

.....
No Fee To Join,
No Ongoing Cost
.....

3 STEP MEMBERSHIP PROCESS

- 1 Confirm The Opportunity**
Complete, transparent, line-item analysis conducted to quantify savings opportunity
- 2 Contracting Process**
After signing a short membership agreement, you'll have access to our various supplier agreements for each category you initially selected
- 3 Implement Categories**
We facilitate development and execution of an implementation plan including detailed core list pricing, ordering processes and tailored catalogs

Fortune 1000 members and similar private and global companies

Typical Member Revenue: \$3 Billion - \$15 Billion
